ERHUN
FURNITURE MECHANISM

STURDY, FUNCTIONAL, TROUBLE-FREE MECHANISMS...

Established in 2006, Erhun Metal became an independent organization in 2012, and is now incorporated as Erhun Metal Furniture and Accessories Inc. Operating on an area of eleven thousand square meters on 1st Avenue in İnegöl Organized Industrial Zone, our company embarked on a mission to meet the sector's needs for renewal, change, and design, and to become a professional solution partner for our manufacturers with our superior design capabilities. With our innovative, practical, and smart mechanisms, we have become one of the leading suppliers in the furniture industry.

Our mission has been to emphasize the importance of education since our inception, to view our teams as our greatest strength, and to operate with the awareness that investment is aimed at nurturing qualified individuals. Our most valuable asset is to cultivate well-educated individuals and contribute them to the sector and our country.

Our vision is to transform our company, which is a national brand known for its quality and innovative vision in the furniture sector, into one of the leading global firms that shapes the industry with its designed mechanisms.

FOLDABLE BED BASE

PATENTED SYSTEM

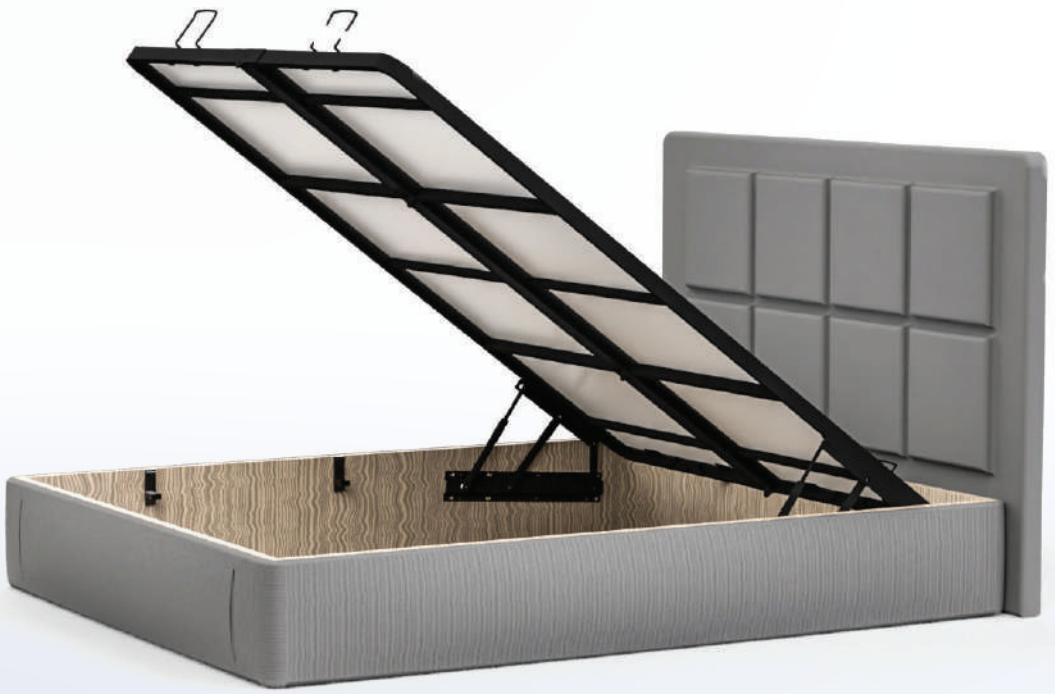

A DOUBLE BED PACKAGE IN SINGLE BED DIMENSIONS

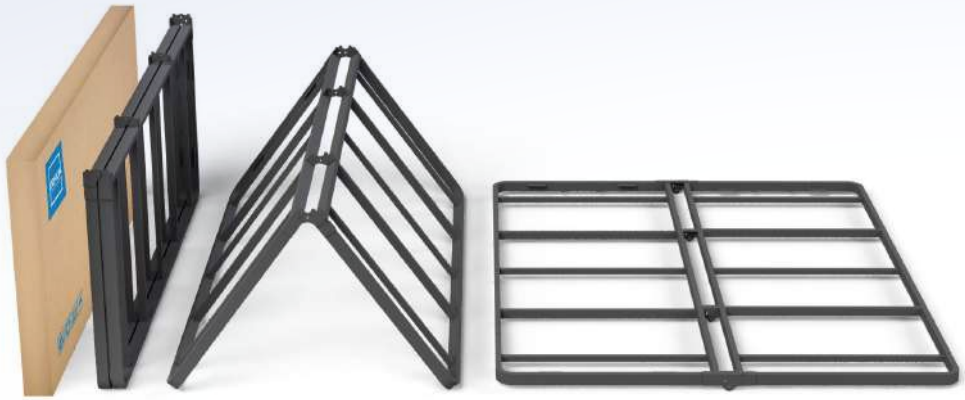

With specially designed hinges, a double bed can have the volume of a single bed base.

Foldable Base, Double Bed Option, High Load Capacity

Scan QR Code
for More **Information!**

Key Advantages of the Foldable Bed Base Cover at a Glance:

- Compact and robust design.
- Easy to transport in narrow spaces, tight passageways, and stairwells.
- Can be carried by one person.
- High engineering design that avoids SSH problems.
- Easy assembly with simple and clear installation instructions.
- Can support up to 550 kg without a central leg.
- Ample storage capacity.
- Custom size options for bulk orders.

FOLDABLE SLATTED BED BASE

PATENTED SYSTEM

A DOUBLE SLATTED BED PACKAGE IN SINGLE BED DIMENSIONS

With specially designed hinges, a double bed base can have the volume of a single bed base.

Foldable Base,
Double Bed Option

Scan QR Code
for More **Information!**

Key Advantages of the Foldable Slatted Bed Base Cover at a Glance:

- Compact and robust design.
- Easy to transport in narrow spaces, tight passageways, and stairwells.
- Can be carried by one person.
- High engineering design that avoids SSH problems.
- Easy assembly with simple and clear installation instructions.
- Can support up to 550 kg without a central leg.
- Ample storage capacity.
- Provides a flexible and dynamic surface for the bed.
- Enhances air circulation, prevents moisture, and extends the life of the mattress.

ULUDAG
HINGE MECHANISM

PATENTED SYSTEM

EASY TO USE AND STORE

Thanks to its lockable mechanism at 90 degrees, you can secure the bed at a high point without straining your back, easily change the bedspread, and access the space at the head of the base. Simply push the bed slightly to return it to its original position.

Scan QR Code
for More **Information!**

Key Advantages of the Uludağ Base Mechanism at a Glance:

- Facilitates daily bed maintenance and cleaning.
- Full use of storage space and easy access.
- Comfortable ease of use.

DEMOUNTABLE SMART BASE COVER

PATENTED SYSTEM

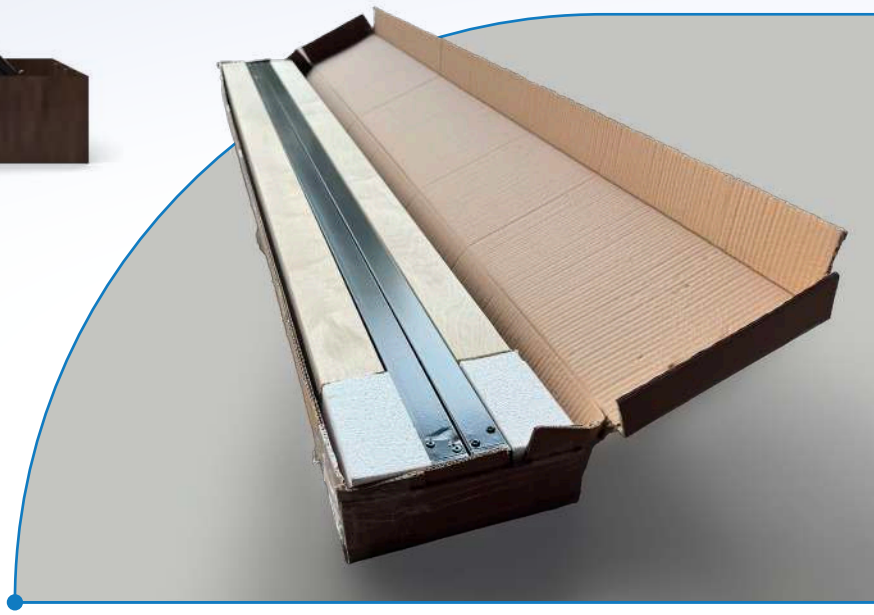

Specially designed connection components for easy assembly, and a demountable structure that allows for packaging up to 5-6 layers.

Redefine your sleep experience with quality design. Enjoy the comfort.

Scan QR Code
for More **Information!**

Key Advantages of the Demountable Smart Base at a Glance:

- Compact and robust design.
- Minimum volume, minimal packaging, maximum shipping advantage.
- Can be carried by one person.
- Easy transport in narrow spaces, tight passageways, and stairwells.
- High engineering design that avoids SSH problems.
- Ample storage options.
- Provides a flexible and dynamic surface for the bed.
- Enhances air circulation, prevents moisture, and extends the life of the mattress.

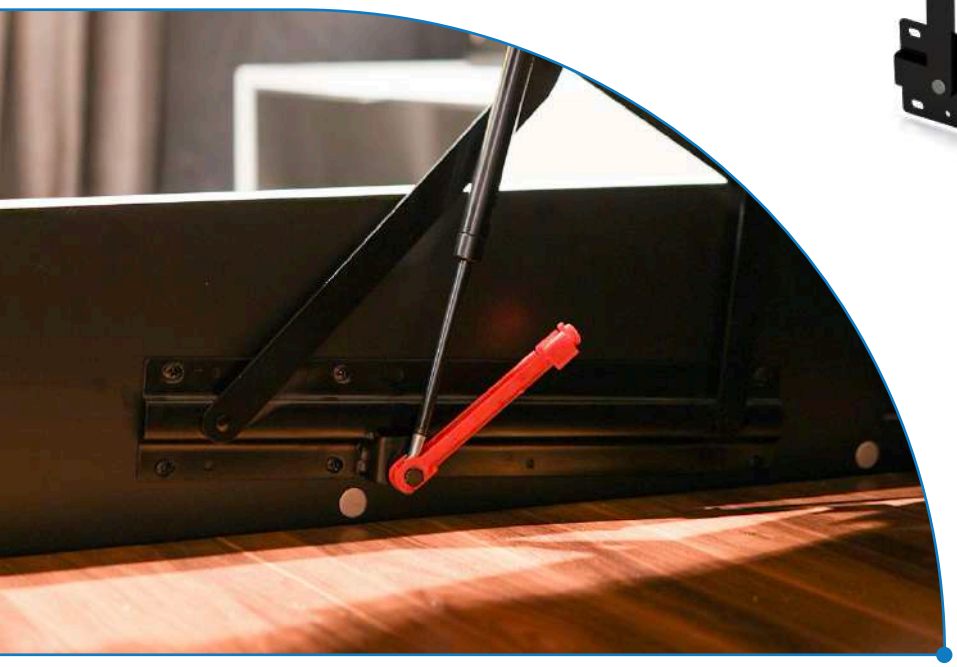

TREND
HINGE MECHANISM

PATENTED SYSTEM

EASY LIFTING FOR HEAVY MATTRESSES, PERFECT BALANCE

An intelligent solution that simplifies storage, a major innovation for small rooms.

Scan QR Code
for More **Information!**

Key Advantages of the Trend Base Mechanism at a Glance:

- Erhun Trend Mechanism is specially designed to lift heavier modern mattresses effortlessly, eliminating issues of strain and mechanical wear found in traditional mechanisms.
- Made with high-strength materials and precise manufacturing techniques, the mechanism ensures controlled lowering of the mattress, minimizing the risk of sudden drops when the mattress is lowered.
- Optimized for long-term performance even with frequent use, the Erhun Trend Mechanism is durable due to its wear-resistant structure.
- Designed to fit standard installation points, the Erhun Trend Mechanism offers a quick and easy installation process without integration issues with existing systems.
- User safety is prioritized in the product's design, with the controlled movement mechanism minimizing the risk of injury.

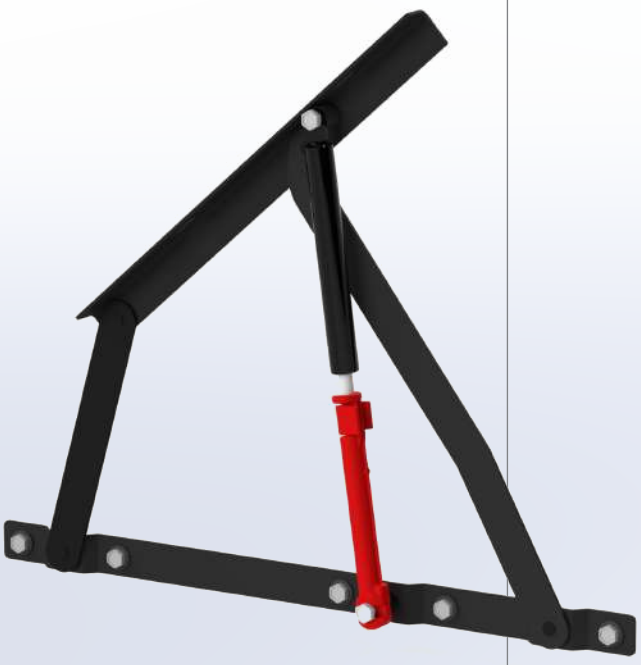

SIDE
HINGE MECHANISM

PATENTED SYSTEM

MAXIMUM SPACE WITH SIDE OPENING.

An intelligent solution that simplifies storage, a major innovation for small rooms.

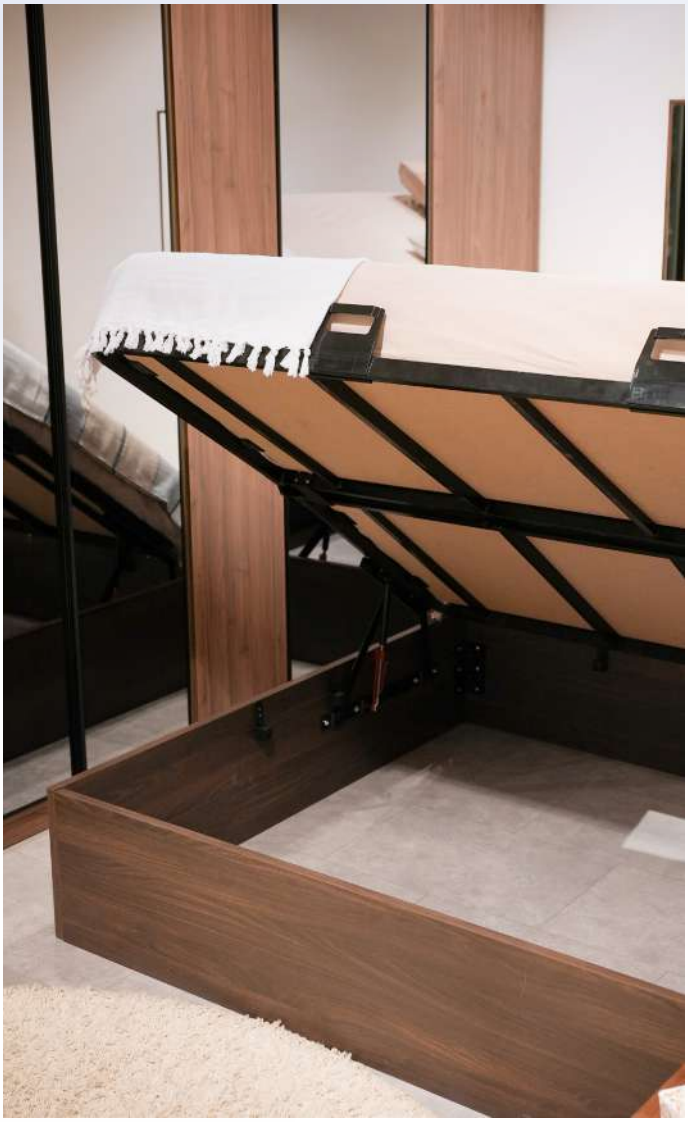

Scan QR Code
for More **Information!**

Key Advantages of the Side Base Mechanism at a Glance:

- The Side Base Mechanism allows the base to open from the side, offering ease of use in narrow spaces.
- The side-opening feature provides easier access to storage space, making it convenient to place and retrieve items.
- Especially useful in tight and small rooms, it allows easy opening and closing of the base.
- With the ability to be mounted from both sides, it does not pose directional problems in narrow spaces.
- The mechanism provides both aesthetic and functional solutions, helping save space in your living areas.
- Its sturdy construction and high-quality materials ensure long-lasting and reliable performance.

VERSACE

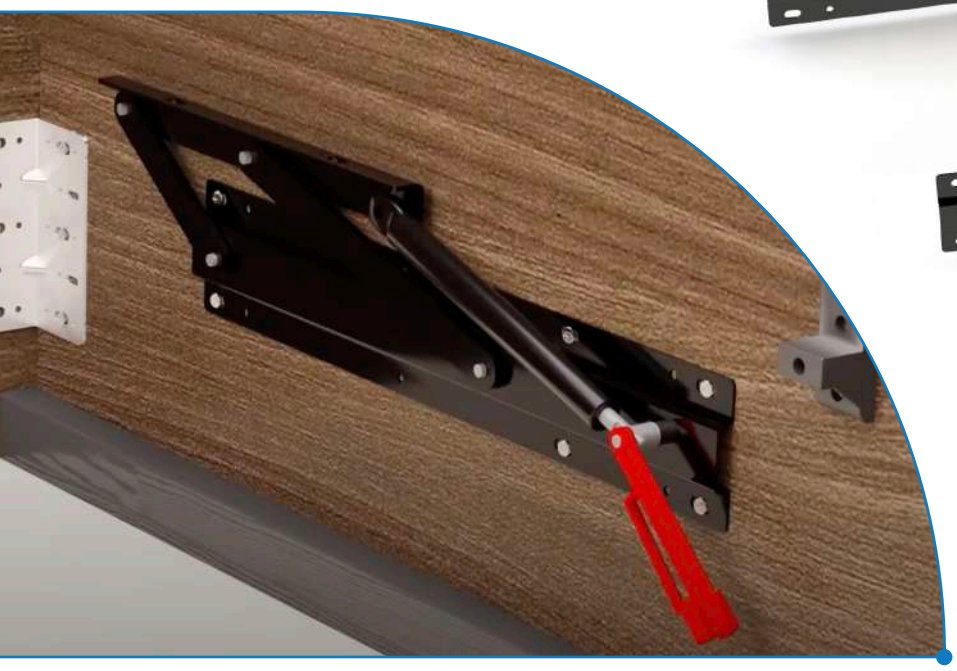

VERSACE

ERHUN
HINGE MECHANISM

PATENTED SYSTEM

SUPERIOR DESIGN THAT ELEVATES DURABILITY TO THE HIGHEST LEVEL.

An intelligent solution that simplifies storage, a major innovation for small rooms.

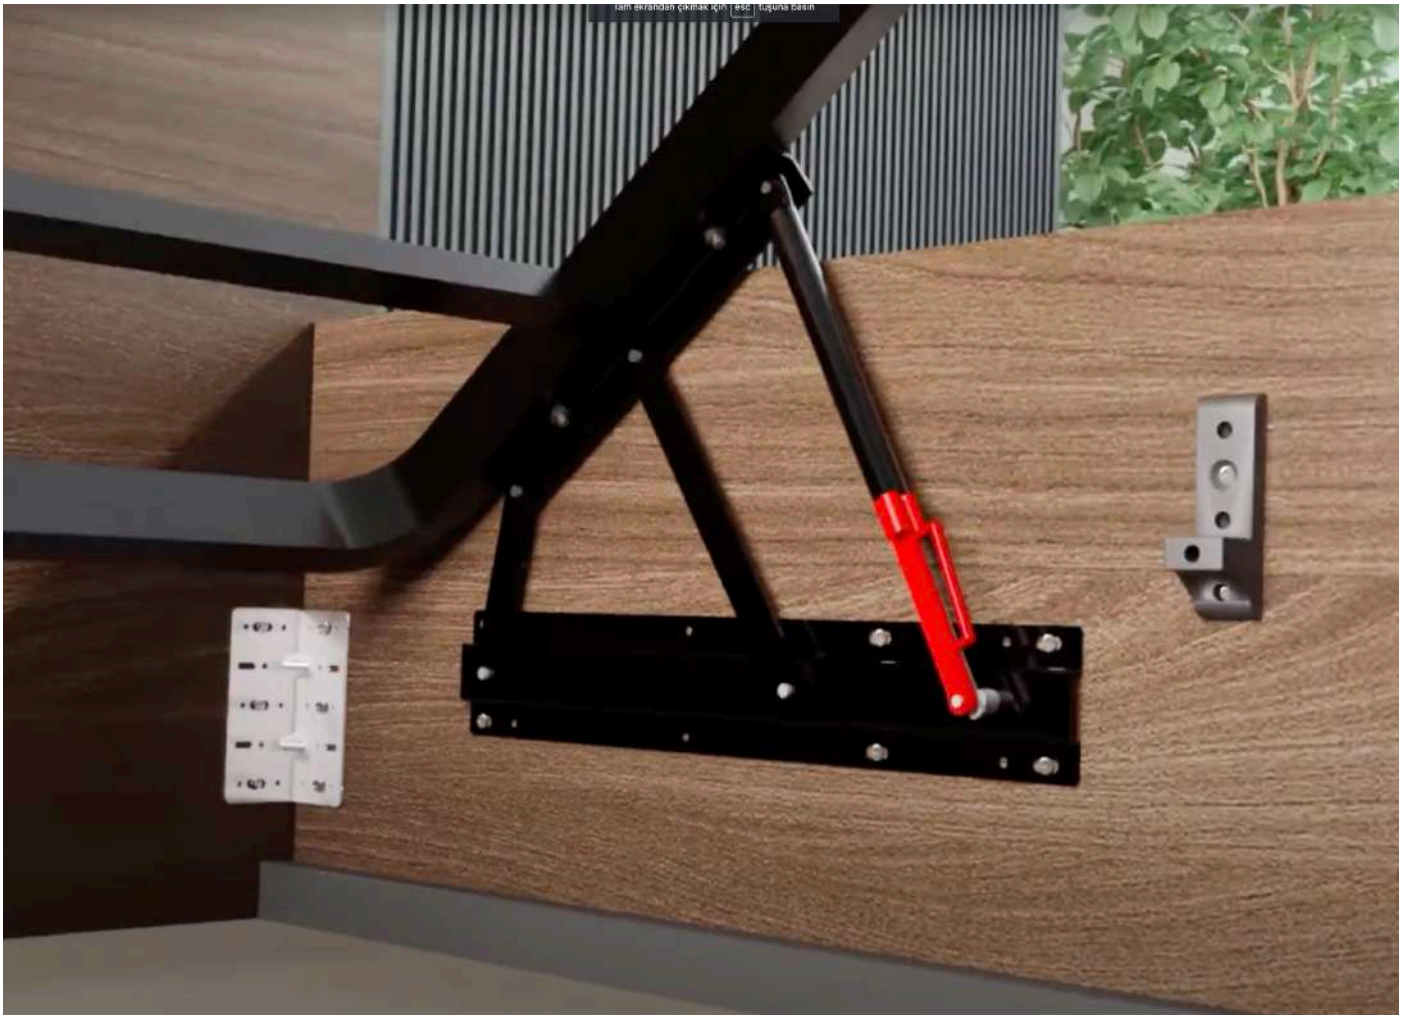

Scan QR Code
for More **Information!**

Key Advantages of the Erhun Base Mechanism at a Glance:

- The robust and wide-based lower platform enhances the durability and stability of the base mechanism, ensuring long-term use.
- The durable upper corner bracket guarantees safe operation and high performance of the mechanism.
- Sturdy piston connections, produced with unique design and special welding processes, support smooth and secure operation of the mechanism.
- Electrostatic powder coating gives the product an aesthetic appearance while providing superior corrosion protection.
- Use of high-quality materials ensures that the base mechanism remains sturdy even under heavy loads.
- Ergonomic design offers ease of assembly and use, providing a user-friendly experience.
- Optimized design at all connection points ensures maximum safety and prevents performance loss even with long-term use.

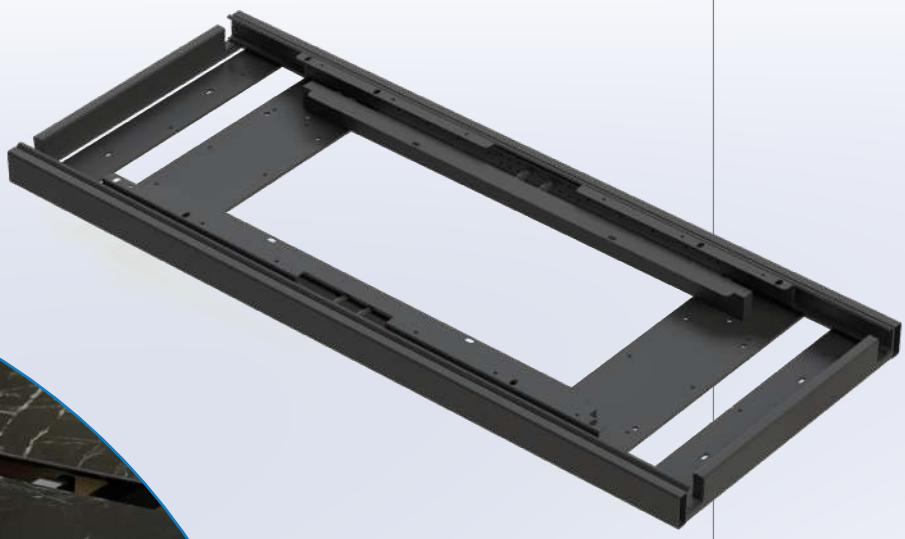

OYLAT

TABLE
MECHANISM

PATENTED SYSTEM

FUNCTIONAL AND ELEGANT TABLE SOLUTIONS THAT FIT EVERY SPACE.

Functional and Elegant Solutions.

Scan QR Code
for More **Information!**

Key Advantages of the Oylat Table Mechanism at a Glance:

- The Oylat Table Mechanism offers users a practical and functional table solution.
- Expanding the table's size is as simple as pulling it sideways, making it extremely easy to use.
- Its compact and stylish design allows it to be used comfortably in both small and large spaces.
- Made from durable materials and crafted with high quality, it ensures long-lasting use.
- Whether at home or in the office, the Oylat Table Mechanism optimizes space usage efficiently.

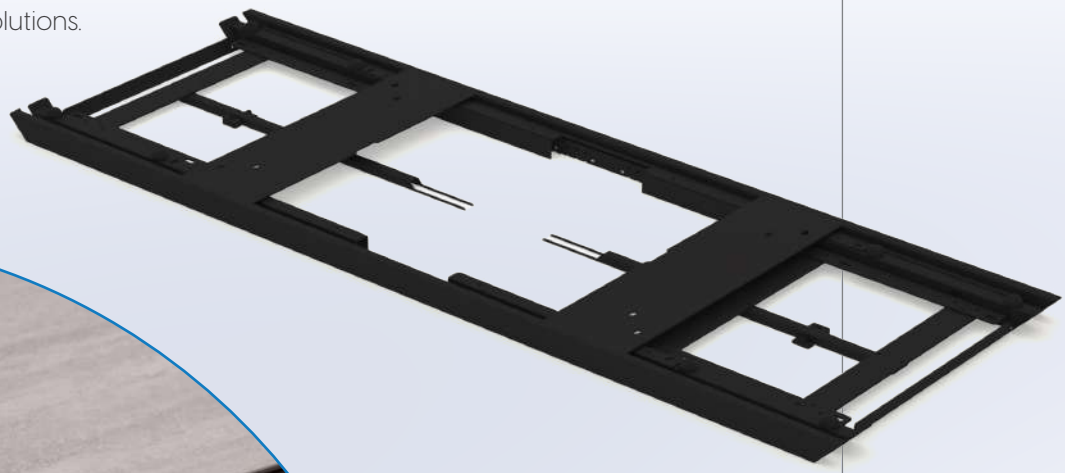

ATLAS

TABLE
MECHANISM

PATENTED SYSTEM

FUNCTIONAL AND ELEGANT TABLE SOLUTIONS THAT FIT EVERY SPACE.

Functional and Elegant Solutions.

Scan QR Code
for More **Information!**

Key Advantages of the Atlas Table Mechanism at a Glance:

- The Atlas Table Mechanism provides users with a practical and functional table solution.
- Expanding the table's size is as simple as pulling it sideways, making it extremely user-friendly.
- Its compact and stylish design makes it suitable for both small and large spaces.
- Durable materials and high-quality craftsmanship ensure long-lasting use.
- Whether at home or in the office, the Atlas Table Mechanism optimizes space usage efficiently.
- Features synchronized operation.
- Allows the table to be opened from both sides.

IPEK

COFFEE TABLE
MECHANISM

PATENTED SYSTEM

A MECHANISM THAT REVITALIZES THE COFFEE TABLE WITH PRACTICAL USE.

Functional and Elegant Solutions.

Scan QR Code
for More **Information!**

Key Advantages of the Ipek Coffee Table Mechanism at a Glance:

- Easy to use.
- Stylish and elegant design featuring high engineering.
- Compatibility with various tabletop and leg designs.
- Allows easy transformation of the coffee table into a working desk.

KIM

SOFA
MECHANISM

PATENTED SYSTEM

FROM A DOUBLE SOFA TO A RELAX AND SINGLE BED.

Optimum Solutions for Tight Spaces.

Standard and Relax Seating,
Single Bed.

Scan QR Code
for More **Information!**

Key Advantages of the KIM Sofa Mechanism at a Glance:

- The KIM Sofa Mechanism combines functionality and aesthetics to make your living spaces more versatile.
- Provides at least 100 cm of seating width for the sofa it is applied to.
- Easy to use even in narrow spaces due to its simple and user-friendly design.
- Constructed with high-quality materials, it features a durable structure that emphasizes longevity and reliability.

SYM

BACK ELEVATING
MECHANISM

PATENTED SYSTEM

RELAX SEATING AND SINGLE BED IN A SOFA.

Optimum Solutions for Tight Spaces.

Standard and Relax Seating,
Single Bed.

Scan QR Code
for More **Information!**

Key Advantages of the SYM Back Elevating Mechanism at a Glance:

- SYM is a functional back mechanism that can provide a portable back cushion appearance.
- Its upward-moving mechanism allows for "zero-wall" placement of the chair without moving it, offering a wider seating area and neck support.
- Operates effortlessly from any point due to its intermediate connection system.
- Made from high-quality HRP metal sheet material, it is resistant to bending and warping.
- Coated with a uniformly distributed electrostatic oven paint that ensures long-lasting durability.

DSS

BACK MOVEMENT
MECHANISM

MAXIMUM COMFORT WITH BACK MOVEMENT.

A sofa mechanism that features a reclining back for relax seating and a single bed option.

Standard and Relax Seating, Single Bed.

Scan QR Code
for More **Information!**

Key Advantages of the DSS Back Movement Mechanism at a Glance:

- The back mechanism provides standard seating in the first position.
- The practical recline of the back mechanism offers maximum comfort with seating depth.
- The practical recline of the back mechanism allows for a comfortable single bed option in three-seat sofas.

L 24

ARM & BACK MOVEMENT
MECHANISM

PATENTED SYSTEM

WIDER SEATING WITH ARM & BACK MOVEMENT.

A sofa mechanism with a reclining back that provides relax seating and a single bed option.

Standard and Relax Seating, Single Bed.

Scan QR Code
for More **Information!**

Key Advantages of the L24 Arm & Back Movement Mechanism at a Glance:

- The back mechanism provides standard seating in the first position.
- The practical recline of the back mechanism offers maximum comfort with seating depth.
- The practical movement of the arm mechanism widens the seating area, providing more seating space.
- The combined practical movement of the arm and back mechanisms allows for a comfortable single bed option in three-seat sofas.

PATENTED SYSTEM

L 40

MAXIMUM COMFORT WITH
BACK MOVEMENT.

WIDER SEATING WITH ARM & BACK MOVEMENT.

A sofa mechanism with a reclining back that provides relax seating and a single bed option.

Standard and Relax Seating, Single Bed.

Scan QR Code
for More **Information!**

Key Advantages of the L40 Arm & Back Movement Mechanism at a Glance:

- The back mechanism provides standard seating in the first position.
- The practical recline of the back mechanism offers maximum comfort with seating depth.
- The practical recline of the back mechanism allows for a comfortable single bed option in three-seat sofas.

CSS 4

BACK MOVEMENT
MECHANISM

PATENTED SYSTEM

THREE STATES OF THE SOFA

Provides standard seating, deep seating, and a single bed option in three-seat, two-seat, and single-seat modules.

Three States of the Sofa: Standard Seating, Deep Seating, Bed.

Specially designed screws that do not damage fabric or leather.

Scan QR Code
for More **Information!**

Key Advantages of the CSS 4 Back Movement Mechanism at a Glance:

- The back mechanism provides standard seating in the first function.
- The practical recline of the back mechanism offers maximum comfort with seating depth and allows for a single bed option.
- Offers the possibility of using fixed or removable back cushions in your designs.
- Provides maximum sales potential with minimal mechanism cost.
- Quick and economical application ease with 40% less screw usage.

PATENTED SYSTEM

CSS 4 ABS

BACK MOVEMENT MECHANISM

THREE STATES OF THE SOFA

Provides standard seating, deep seating, and a single bed option in three-seat, two-seat, and single-seat modules.

Three States of the Sofa: Standard Seating, Deep Seating, Bed.

Specially designed screws that do not damage fabric or leather.

Scan QR Code for More **Information!**

Key Advantages of the CSS 4 ABS Back Movement Mechanism at a Glance:

- The back mechanism provides standard seating in the first function.
- The practical recline of the back mechanism offers maximum comfort with seating depth and allows for a single bed option.
- Offers the possibility of using fixed or removable back cushions in your designs.
- Provides maximum sales potential with minimal mechanism cost.
- Quick and economical application ease with 40% less screw usage.

CSS 3

BACK MOVEMENT
MECHANISM

3 POSITIONS OF THE SOFA

In triple, double, and single modules, in addition to standard seating, deep seating and single bed options are available for the triple modules.

Three States of the Sofa: Standard Seating, Deep Seating, Bed.

PATENTED SYSTEM

Specially designed screws that do not damage fabric or leather.

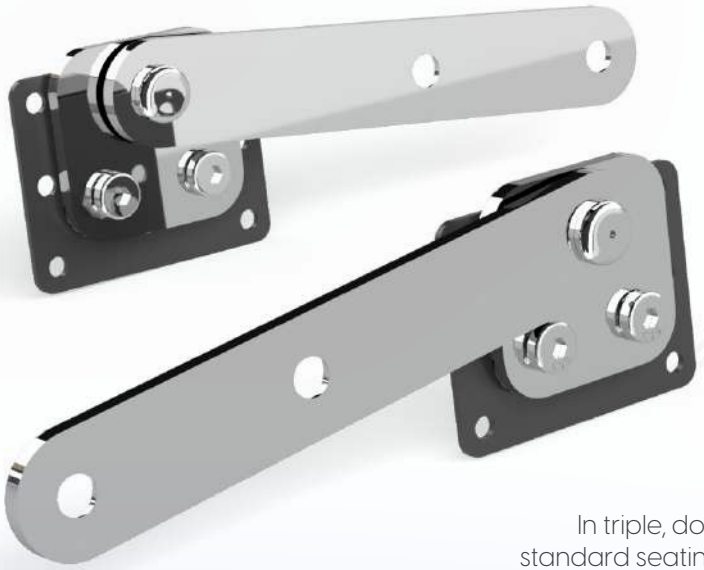

Scan QR Code
for More **Information!**

Advantages of CSS 3 Back Movement Mechanism at a Glance:

- The back mechanism provides standard seating in the first position.
- Its practical unfolding increases seating depth, offering maximum comfort and a single bed option.
- Allows for both fixed and removable back cushions in your designs.
- Ensures cost-effective application with fewer screws, maximizing sales potential.

CSS 2

BACK MOVEMENT MECHANISM

3 POSITIONS OF THE SOFA

In triple, double, and single modules, besides standard seating, deep seating and a single bed are available for the triple modules.

Three States of the Sofa: Standard Seating, Deep Seating, Bed.

PATENTED SYSTEM

Specially designed screws that do not damage fabric or leather.

Scan QR Code for More **Information!**

Advantages of CSS 2 Back Movement Mechanism at a Glance:

- The back mechanism provides standard seating in the first position.
- Its practical unfolding increases seating depth, offering maximum comfort and a single bed option.
- It allows for both fixed and removable back cushions in your designs.
- Ensures cost-effective application with fewer screws, maximizing sales potential.

CSS 2
KISA SİLME

OPTIMUM

DUAL RELAX -
DOUBLE BED

PATENTED SYSTEM

RELAX SEATING AND BED FROM DUAL AND SINGLE SOFA

Optimum solutions for narrow spaces.

Standard Seating - Relax Seating Double Bed.

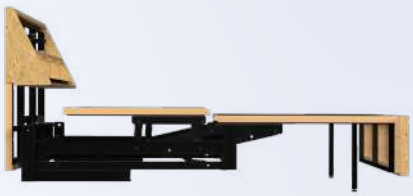

Specially designed screws that do not damage fabric or leather.

Scan QR Code
for More **Information!**

Advantages of Optimum at a Glance:

- Optimal solution for hospital and hotel projects.
- Offers both relax and double bed features with a dual sofa in small spaces.
- Suitable for mass production due to its demountable structure.
- The demountable design also provides advantages for after-sales services like shipping and spare parts.

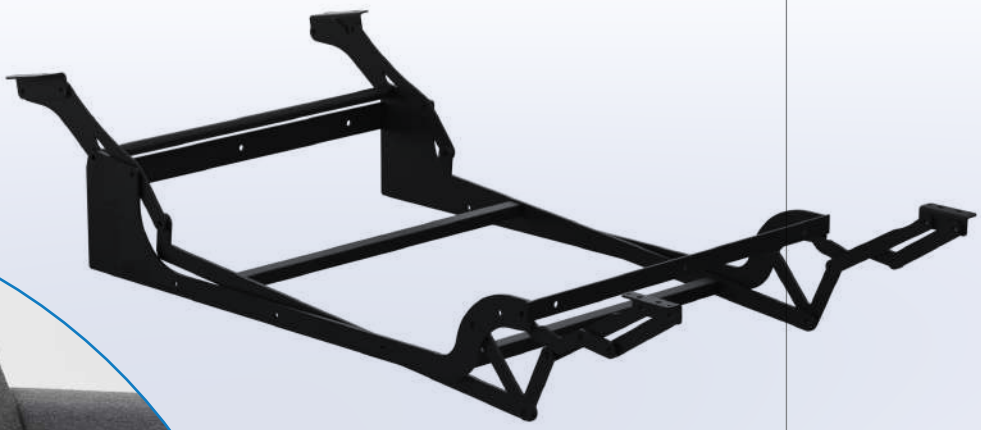

KONFOR RELAX

MECHANISM

PATENTED SYSTEM

FULL SUPPORT İN ONE MOVE – COMFORT FROM HEAD TO TOE

Lean back and let comfort come to you.

Scan QR Code
for More **Information!**

Advantages of Konfor Relax at a Glance:

- Compatible with modular design.
- Available in manual and motorized options.
- User-friendly design.
- Freedom in module width design.

YA 4 TRIPLE

Raised Zero Mechanism

PATENTED SYSTEM

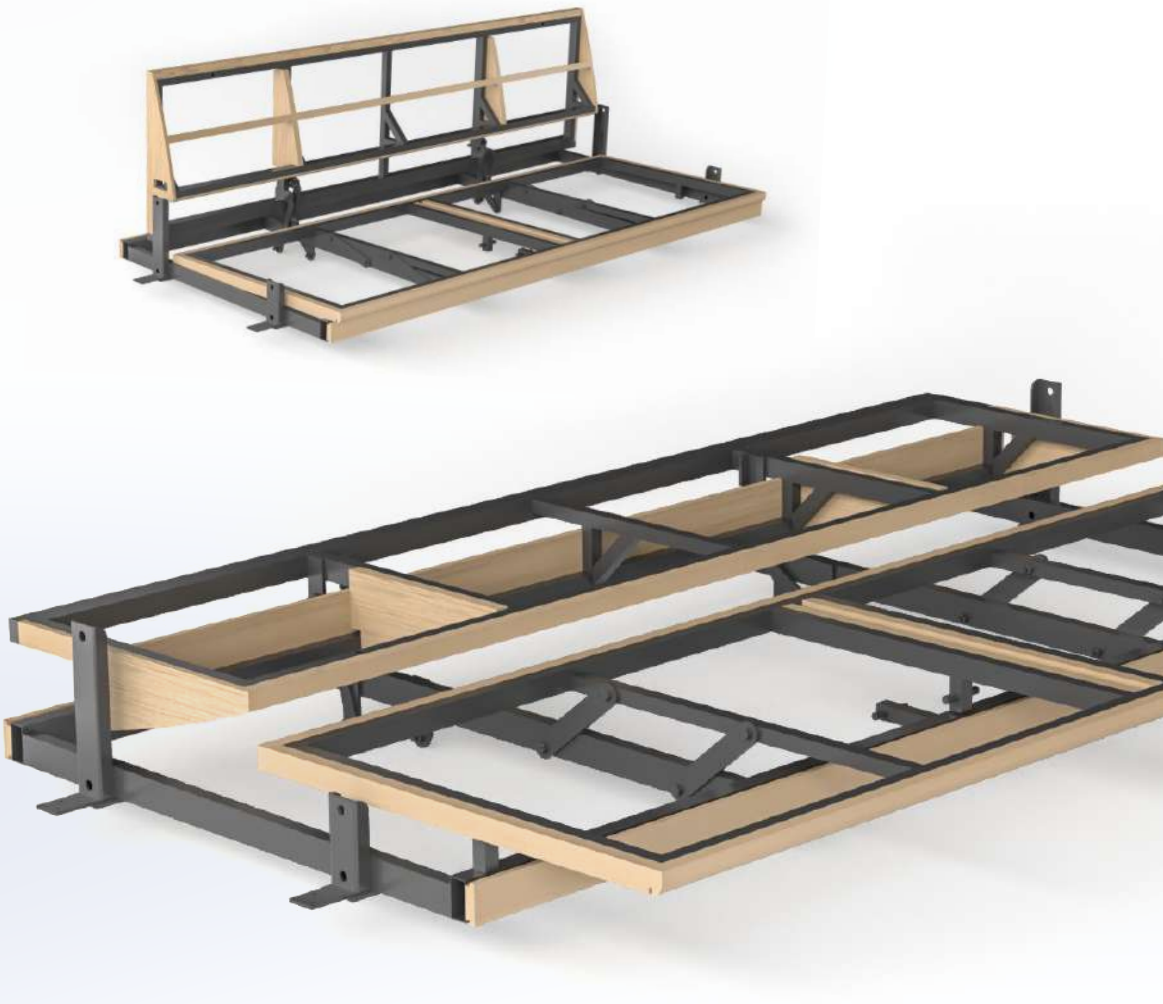

RAISED FROM THE GROUND WITH A BED FEATURE

This living room sofa mechanism can transform into a double bed while maintaining its elevated structure, even when positioned flush against the wall.

Features include fixed seating cushions and removable back cushions.

Scan QR Code
for More **Information!**

Advantages of YA 4 Özbek Zero at a Glance:

- Available in various sizes.
- 3-year warranty.
- Suitable for easy and mass production.
- 100% customer satisfaction.
- Can easily be converted into a bed with minimal effort.
- 10-year rust-proof warranty thanks to electrostatic paint.
- Offers a double bed feature for living room sofas at the lowest cost.
- The bed function is seamlessly integrated into the sofa design, preserving its aesthetics.
- Can be placed fully against the wall and still used as a bed.
- Compatible with washable slipcover sofas.
- Does not require additional locking systems in either bed or seating positions.
- Can be applied to sofas with detachable armrests.

TEKYAT 01

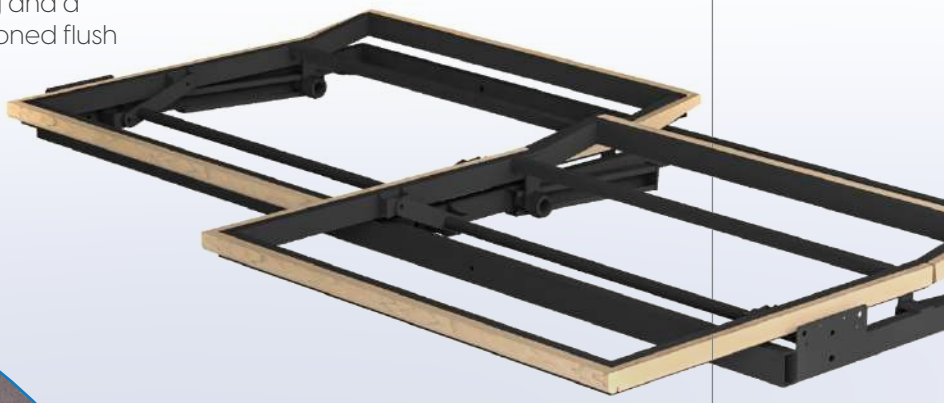

DUAL OPENING MECHANISM

PATENTED SYSTEM

SOLUTIONS WITH A SINGLE BED FOR NARROW SPACES

The mechanism allows deep seating and a single bed feature, even when positioned flush against the wall.

Standard Seating - Deep Seating Single Bed.

Unlimited Design Freedom

Scan QR Code for More **Information!**

TEKYAT O1

DUAL OPENING MECHANISM

SOLUTIONS WITH A SINGLE BED FOR NARROW SPACES

Advantages of Tekyat O1 at a Glance:

- The appearance of a living room set with ease of use.
- Demountable seat and frame parts, suitable for mass and band production, with easy storage and low shipping costs.
- A single motion allows for deep seating and bed conversion.
- Unlimited freedom in sofa design.
- Compatible with both fixed and removable cushion options.
- The single bed feature while being positioned flush against the wall.
- Its demountable structure provides advantages in after-sales services, including shipping, spare parts, etc.

TEKYAT 01

TRIPLE AND DOUBLE MECHANISM

PATENTED SYSTEM

SOLUTIONS WITH A SINGLE BED FOR NARROW SPACES

This mechanism provides deep seating and a single bed feature, even when positioned flush against the wall.

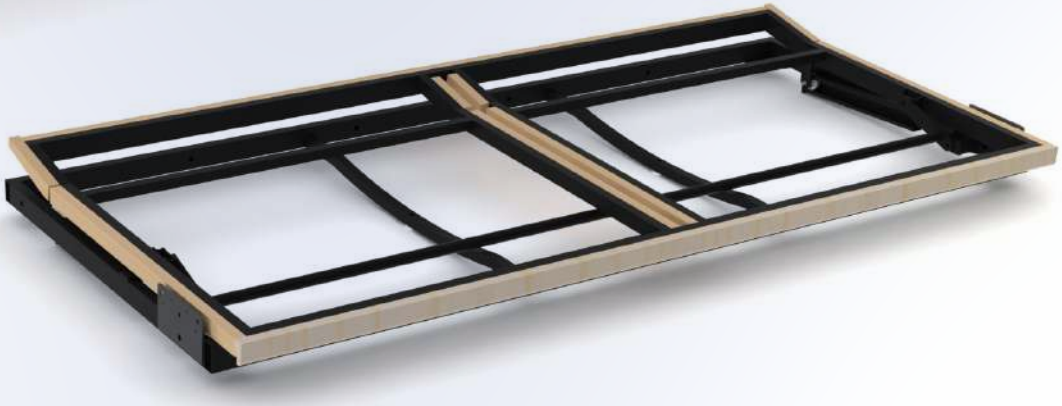

Unlimited Design Freedom

Standard Seating - Deep Seating Single Bed.

Scan QR Code for More **Information!**

TEKYAT 01

Üçlü ve İkili Mekanizma

SOLUTIONS WITH A SINGLE BED FOR NARROW SPACES

Advantages of Tekyat 01 at a Glance:

- Elegant living room set appearance with ease of use.
- Demountable seat and frame parts suitable for mass production, offering easy storage and low transport costs.
- With a single motion, it provides deep seating and transforms into a bed.
- Unlimited freedom in sofa design.
- Compatible with both fixed and removable cushion options.
- The single bed feature functions even when the sofa is placed flush against the wall.
- The demountable structure facilitates post-sale services such as transportation and spare parts.

TEKYAT 06

TRIPLE MECHANISM

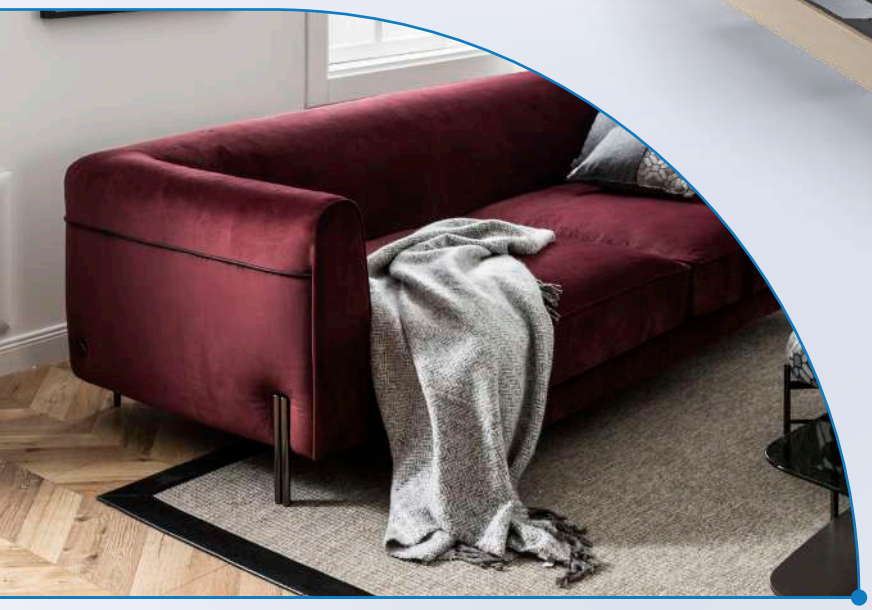

PATENTED SYSTEM

SINGLE BED SOLUTIONS FOR NARROW SPACES

This mechanism allows deep seating and a single bed feature, even when placed flush against the wall.

Unlimited Design Freedom

Standard Seating - Deep Seating Single Bed

Scan QR Code for More **Information!**

TEKYAT O6

TRIPLE MECHANISM

SINGLE BED SOLUTIONS FOR NARROW SPACES

Advantages of Tekyat O1 at a Glance:

- Aesthetic living room set appearance with ease of use.
- Detachable seat and frame parts suitable for mass production, ensuring easy storage and low shipping costs.
- A single movement allows deep seating and transforms into a bed.
- Unlimited design freedom for sofas.
- Compatible with both fixed and removable cushion options.
- The single bed feature functions even when flush against the wall.
- The detachable structure offers advantages for post-sales services, including transportation and spare parts.

SMART 180

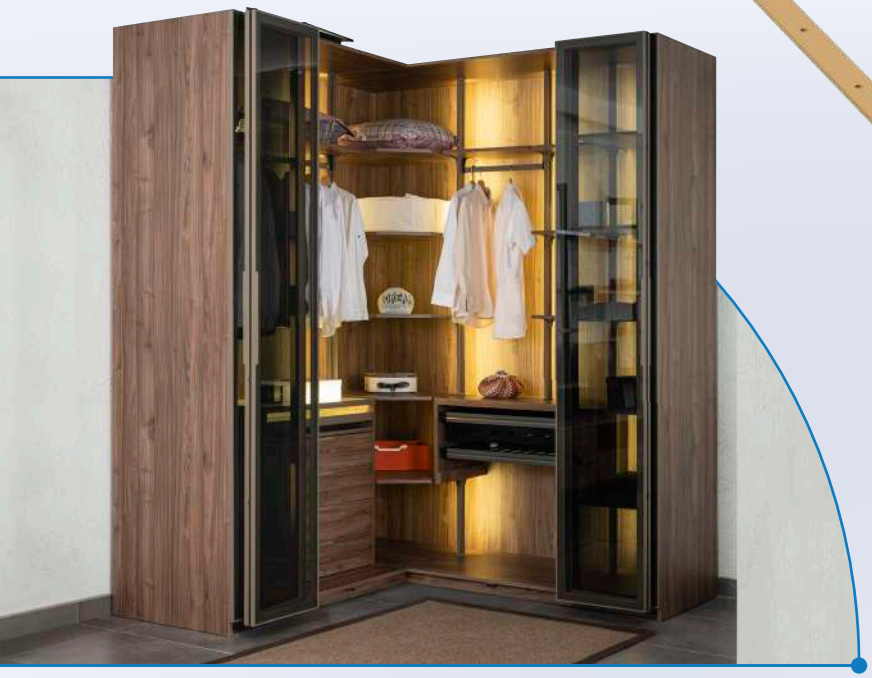

LID MECHANISM

PATENTED SYSTEM

FOLDABLE LID MECHANISM

Smart Design, Easy Access

Scan QR Code
for More **Information!**

Key Advantages of the Smart 180 Lid Mechanism:

- The cabinet lid mechanism allows the lid to fold while opening, saving space and providing a sleek look.
- In corner cabinets, the folding lid offers easier access to the cabinet's contents, making usage more practical.
- The mechanism ensures silent and smooth opening and closing of the lids through its folding motion.
- Its modern and innovative design adds an elegant touch to your cabinet, serving as a decorative element.
- Thanks to its high-quality materials and sturdy construction, it offers long-lasting and reliable performance.
- Suitable for use in flat cabinet doors and dressing rooms.

SMCO1

MODULE JOINING APPARATUS

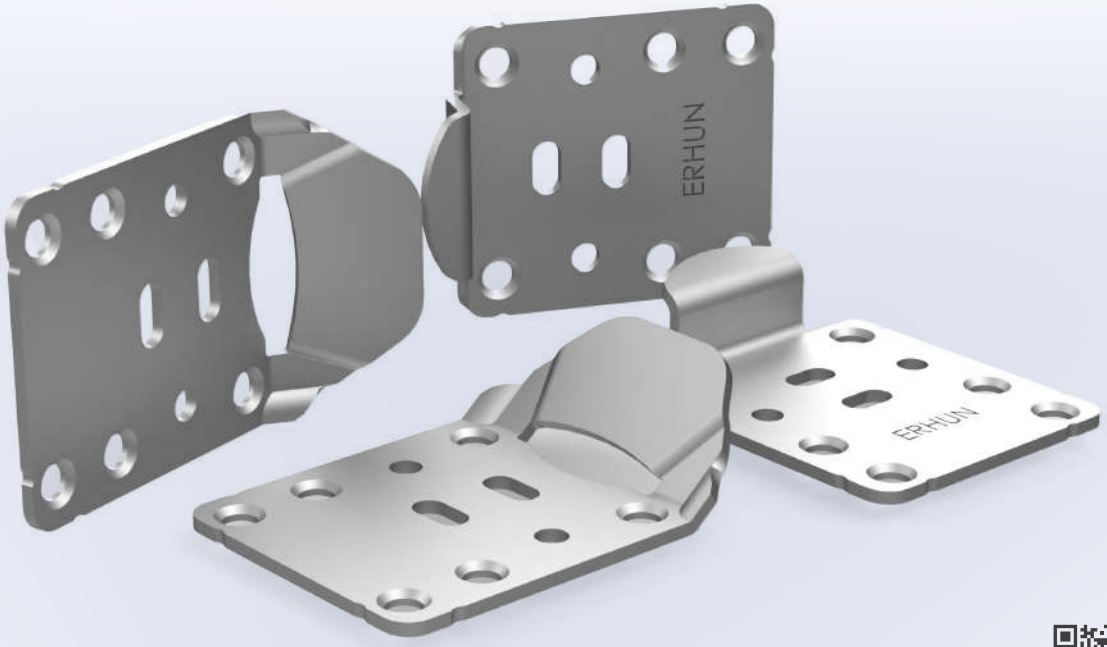

PATENTED SYSTEM

SOFT AND SEAMLESS LOCKING PERFORMANCE

SOFT AND SEAMLESS
LOCKING PERFORMANCE

Specially designed screws that do not damage fabric or leather.

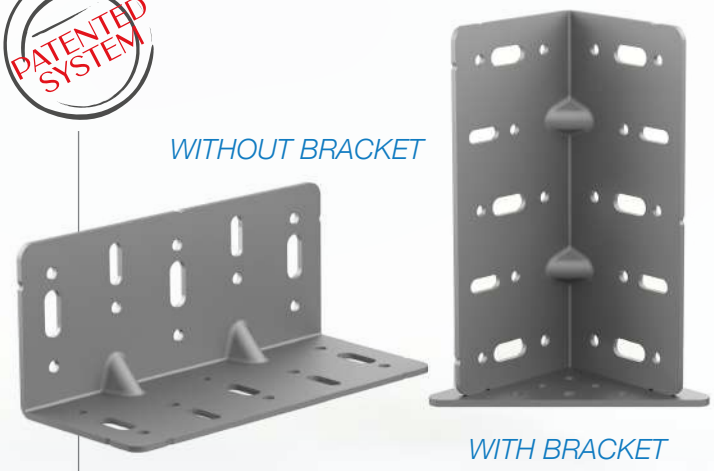

Scan QR Code
for More **Information!**

Key Advantages of the SMCO1:

- Our newly patented, practical, easy-to-install, and economical SMCO1 apparatus can be used for joining module sofas and corner sofa sets. The advanced design allows for soft and gap-free locking performance. Once locked, the modules won't separate unless you decide to detach them.
- To connect the modules, simply align the two modules and let them snap together. To detach them, lift the connected module by 2 cm upwards.
- Since the apparatus isn't attached to the sides of the module, there are no unwanted cuts, holes, screws, or bolts on the fabric or alongside the module.
- One set of the apparatus is sufficient for each module, though more can be used if desired.
- The product is galvanized-coated, making it resistant to rust.

PATENTED SYSTEM

BRACKET

POWERFUL CONNECTION ELEMENT

The spring-loaded structure makes it a very strong connection element.

Its slotted structure allows for tolerance of production errors.

Scan QR Code for More **Information!**

Key Advantages of the Bracket:

- The corner bracket allows you to make strong and stable connections at 90-degree angles, providing consistent rigidity for different surfaces.
- It supports M6, M8, and M10 bolts and wood screws, allowing for versatile applications across various materials such as wood, cast iron, and metal.
- The wide surface design ensures that connection angles remain solid and secure over time.
- Multiple screw or bolt options reduce the risks of loosening, cracking, or separation, even under pressure.
- Available in galvanized or electrostatic finishes, providing rust resistance and an industrial look.

THREADED INSERT NUT

POWERFUL CONNECTION ELEMENT

Wide range of applications, practical and reliable connection element.

Key Advantages of the Threaded Insert Nut:

- M6 and M8 size options.
- Ability to use on wood, cast and metal surfaces.

Scan QR Code for More **Information!**

ADJUSTABLE MIDDLE LEG

PATENTED SYSTEM

WITH THREADED, FLANGED, AND FLANGED-THREADED OPTIONS...

Aesthetics, elegant
design and durability.

Scan QR Code
for More **Information!**

Key Advantages of the Adjustable Middle Leg:

- Special color option for bulk orders.
- Wide range of use in armchairs, furniture and kitchen accessories.
- Minimum 120mm, maximum 200mm dimensions.
- Made of polypropylene raw material, which is considered the safest type of plastic.

PATENTED SYSTEM

NEW PLASTIC BED STOPPER

AESTHETIC AND ELEGANT DESIGN

Provides a practical solution for difficult connections in bed frame installations.

Scan QR Code
for More **Information!**

Key Advantages of the New Plastic Bed Stopper:

- Single leg load capacity of 80 kg.
- Easy application with chipboard screws.
- Can be mounted using countersunk bolts.
- Allows for easy height adjustment in bed frame installations.

SWIVEL ARMCHAIR LEG

PATENTED SYSTEM

AESTHETIC, ELEGANT, AND DURABLE

Aesthetic, elegant,
and strong.

Specially designed screws that do not damage fabric or leather.

Scan QR Code
for More **Information!**

Key Advantages of the Swivel Armchair Leg:

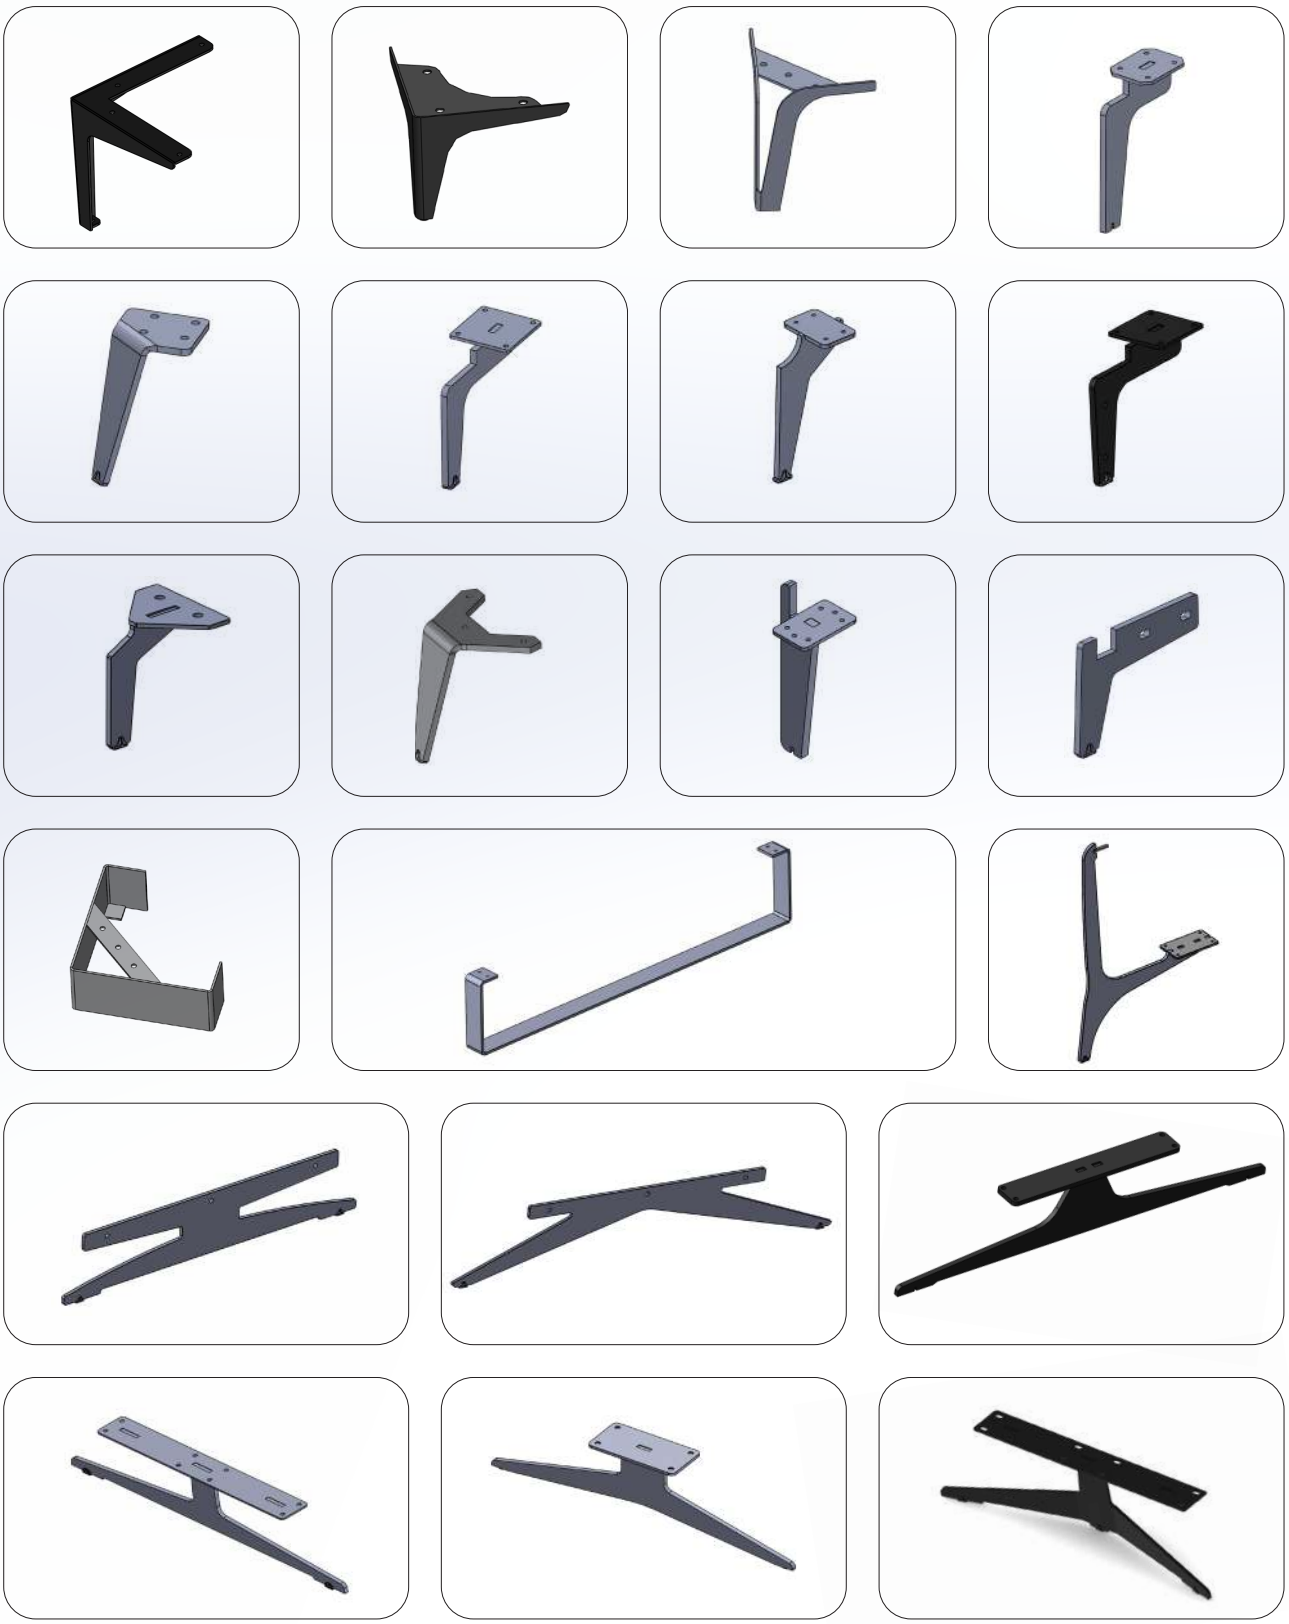

- Aesthetic, elegant, and strong.
- Available with gold, smoke, nickel plating, and electrostatic powder coating options.
